Dear Chief, Asst Chiefs, Deputy Chiefs, Commanders, Captains:

I just completed your Civilian Police Academy in the Northeast Division. This was a wonderful experience where I would be in error if I didn't thank your Dept. and especially Sgt Ruben Arellano and Officer Olga Lowe for their work. These are two amazing Officers that should be commended for their dedication and also for the benefits they bring to the Department's public relations as a whole.

Secondly, I would like to thank Capt. Sandoval and Capt. Waters for providing this training at their Station.

Thirdly, I would like thank all the Officers, Detectives and Pilots in the Dept. for taking their time to educate the Class on what each of them do and for allowing someone like myself to see the world through their eyes and their decades of total experience. The result was my personal understanding and overall admiration for the Department is 100Xs stronger.

Fourthly, I would also like to thank the LAPD Community Policing Office for supporting this Program. I understand this is under Commander Bert (who I have never met) but would still like to thank him and his Officers for this program.

Fifthly, I live and work in Hollywood so I must thank Capt. Palka, Capt. Pinto and all those who work in the Hollwood Division for their *continued* safety.

Lastly, on this THANKSGIVING HOLIDAY 2017 I would like to THANK YOU ALL for the following:

- **BEING HERE.**
- **HELPING OTHERS.**
- **CARING.**
- **SHARING YOUR TIME.**
- **DEDICATION TO THE COMMUNITY.**
- **PUBLIC SERVICE.**
- **WEARING YOUR UNIFORM PROUDLY.**
- **KEEPING THE BADGE RESPECTED.**
- **RECOGNIZABLE LEADERSHIP.**
- **AND MOST IMPORTANTLY TO ME ---- PROTECTING OUR HOMES, WORK, SCHOOLS & CHURCHES --- 24/7/365.**

Please stay healthy, safe and strong.

Please have a Happy Holiday with your loved ones.

>>
>> We wanted to extend an invitation for you to attend our Christmas Stories benefit again this year, being staged on two nights as always, the 1st (Friday) and 2nd (Saturday) of December.

This is our 25th year producing the show, so we are doing all we can to make it very special.

We added up the total, and it's hard to believe, but this show has raised more than $400,000 for the LAPD Hollywood Division youth development programs since 1993! Obviously we are very proud of that, but more importantly, it's the thousand upon thousands of children reached and guided to live a better quality of life that is truly important.

So if you are available, we'd love to have you either night! BUT, I just found out that on Friday night we still have the need for an LAPD official to accept the check of $20,000, so we'd love to have you fill that capacity if you can. However, if you would rather just come to enjoy the show, that would just as fine as well!

Bring as many guests as you'd like. Please let me know if you can make it.

And for a trip down memory lane, here are a few highlights of the show, over the years:

Captain Palka,

There is an additional sentence to the threat from [redacted] last night (I have the actual form now that he filled out online):

"You are all dead. I am gonna murder all of you pig cult bastards and blow up all your building. You are fucked."

I have a call into the [redacted]olice Department but if I could connect with one of your officers ASAP I would greatly appreciate it. Or I can go to the station, whichever is best.

Thanks. Kirsten

Tonight, after the airing of the first episode of Season 2 (Remini program), we received the following death threat on the Religious Technology Center website:

[redacted]

All Churches are going to be gone all every asshole Scientologist dead

[redacted]

There is a [redacted] in [redacted], who has a hunting license and appears to live at:
[redacted]

Part of the reasoning on this is that we have experienced that we will get a random threat and then down the road, it connects to another more serious one. Combining the two then starts to build a case that can sometimes then get pursued on Law Enforcement or Legal lines.

Bottom line of my request is guidance on how to best set up a line with an Officer at your station that I can make these reports with. Simply to document the fact that they occurred - so I can have it reported to the police, and can come away with a document showing that I did. The yellow Police report copies that I get when I go to the station is enough for the purpose of documenting the harassment and the threats.

Any guidance you could provide on this would be greatly appreciated. Thanks.

> Previously I was going to the Hollywood station to report any threats we received, but sometimes this is difficult as they are not the normal types that the officers at the front desk are used to dealing with. Then in January I was advised I could work directly with the Threat Management Unit, which has been very helpful, but does not result in my ending up with a Police report documenting the fact that we received and reported a threatening communication.
>
> I fully realize that a lot of what we report will not necessarily go anywhere as far as investigation and prosecution, but I still feel very strongly that I must report and properly document that I did so. Part of the reasoning on this is that we have experienced that we will get a random threat and then down the road, it connects to another more serious one. Combining the two then starts to build a case that can sometimes then get pursued on Law Enforcement or Legal lines.
>
> Bottom line of my request is guidance on how to best set up a line with an Officer at your station that I can make these reports with. Simply to document the fact that they occurred - so I can have it reported to the police, and can come away with a document showing that I did. The yellow Police report copies that I get when I go to the station is enough for the purpose of documenting the harassment and the threats.

> After a number of emails requesting assistance in resolving the problem with transients that have established permanent residence in front of our building, we feel that our problem will remain a problem for a long long time. Add to that problem is the presence of a group of four male individuals (two whites and two blacks) hanging out almost everyday, daytime or nighttime, in front of our building, eating, smoking, drinking and leaving their trash on our lawn, sidewalk and the street. We believe they were somehow encouraged and influenced by the presence of that tent next to our building. A couple of days ago, I called 911 to ask to check out two of them sitting in front of our gate blocking entry to residents who felt threatened and called me to report them. I saw a patrol car come by and I saw one of them talk to the officer in the car. After that, everything seems normal and they went back to what they were doing. The other night I found the road leading to our building was blocked by patrol cars. I was allowed through by the officers and then I noticed that one of the female transients was talking to the officers and at the end of the road a guy was being questioned by two officers. I could only guess that the transients called 911 to report a guy bothering them. I cannot be certain if this guy was one of the four individuals I mentioned earlier but the point is we are affected by the presence of these transients and hangers on giving us uneasy feeling and fear when coming in and out of our apartment building. Let me add that these transients keep an unleashed dog which is another threat to the safety of our building residents. And I maintain our suspicion that these transients maybe involved in something illegal using our address as front.

So please, Dan, we would very much appreciate any action that can be taken the soonest possible time to keep us safe in our own residence.

Hi Dan,

Just a follow-up on my email the other day. As I mentioned earlier, the tent was finally removed but the very next day a transient occupied the exact same spot. (Please see attached photos). I also mentioned about the idea to place a huge planter in that corner to discourage transients from putting up a tent there. I have attached photos of the little cacti garden on Bronson Avenue atop the 101 Freeway courtesy of Scientology personnel. I already approached the same people for help in sourcing needed materials (cacti, soil and lava rocks) should we get approval for this project. We propose either a triangular garden similar to the one on Bronson Ave. which means part of the concrete will be cut off, or you (the city or the appropriate department) provide us with a huge triangular box or planter with soil and lava rocks and we will take care of the cacti plants.

We believe this would not only solve our perennial problem with transients but would contribute to the beautification effort of the city. And if you consider the many hours the police and other agencies spend in answering and responding to complaints about tents in that area which could very well be utilized in addressing more urgent needs of the community, I think it is money well spent.

Thank you again and I hope to hear from you soon.

Gil,

Thank you for writing to us although I'm sorry to hear that the concerns are ongoing. I am CCing several LAPD personnel to this email including Hollywood Captain Cory Palka, HOPE (Homeless Outreach and Proactive Engagement) Sergeant Michael Fox, Hollywood Sergeant Darrell Davis, Senior Lead Officer Armen Sevdalian, as well as Hollywood Neighborhood Prosecutor Steve Houchin.

Gil -- LAPD has identified your area as high priority to help resolve the various issues.

LAPD and Steve -- Gil manages the building at 1762 Tamarind Ave which is right off of Carlos Avenue between Bronson and Gower. Is there any additional information you can share with Gil at this time?

Thanks,

Mr. Mayor/Gentlemen:

We are writing to your good office to bring to your attention this nagging problem with transient(s) living in a tent in front of our apartment building. Please see attached photo. It has been there for almost two months now and most recently we saw human waste on our walkway leading to our gate. In the morning, you see a lot of trash on the street and sidewalk left by people hanging around the area. Sometime this week a tagger spray-painted our garage door (refer to attached photo). Yesterday, I confronted a would-be tagger (photo attached), spray paint in hand, before he was able to carry out his intended plan. All these are somehow encouraged or influenced by that permanent encampment next to our building. This is really getting out of hand and putting us in great danger everyday. As the manager of the apartment building, I have been receiving numerous complaints from residents expressing dismay and frustration directed to the building management for not doing anything about it. I don't expect them to believe when we tell them that we have been calling and reporting this matter to the city government when they see no evidence of any action being taken. I really can't blame them because it has been affecting us in such a way that we no longer feel safe in our neighborhood. Our building residents, especially women, are fearful of entering our building alone at night thinking someone might just come out from behind and assault them. The tent is there 24/7 and we see no attempt in evicting the occupant(s) during the day despite numerous times we reported it to MyLA311 except a reply notifying us that the case has been resolved. What happened to the ban on erecting tents on the sidewalk during daytime hours? If we park our cars illegally on the street, we get cited and pay a fine. Why are the occupants of these tents treated differently when they violate the ban mentioned above? Do they get a citation or made to pay a fine for such violation? It seems to us that the police are powerless in getting these people and their tent removed.

We chose to move into our apartment building because of the Hollywood effect and also knowing that the city government will do everything to make this part of the city the biggest draw for tourists. Transients may be tolerated but to establish permanent residence on the side of the road in full view of all visitors from the freeway, I don't know how the city government can allow it. Keeping it unchecked will only make matters worse. If no action is taken now, we expect the number of tents to grow in the immediate future. It has been happening now on Carlos Avenue, our cross street. It used to be just one tent then came two or more tents. The last thing we need is a tent city next to where we live. So please help us keep Hollywood the place every tourist would like to see during their visit.

Thanking you in advance for your immediate action.

I wanted to inform you that the staff member in charge of promotion at the Church of Scientology Los Angeles, 4810 W. Sunset Blvd., Los Angeles, CA 90027, received the threat attached to this e-mail. She saw it this morning, but as noted, it was sent last night at 1:52 A.M. This message was sent via the "Contact Us" link on the Church of Scientology website, "Scientology.org". The suspect's IP address is noted on the message data, and the suspect filled out their state as "California". The threat itself said: "I'm here to purge the world of scientologists. I've left a pipe bomb at one of your churches. Have fun." We are currently doing our drill and so far have had a team of persons, including a bomb dog, check our premises for any bombs or signs of one. Nothing has been found.

Please let me know if you have any questions.

Sincerely,

Alex Ervin

Dear Ramiro,

Hello! I spoke with our Technician and he can set up a connection for a power point in the "Little Theater" and in the stage, which ever is preferred by your team.

I wanted to also find out if you could give me a few more details on the meeting. Is it a day of training seminars for the officers?

Would you be able to send me an agenda for the day?

We can also print the agenda for you here at the studio with a nice design if you would like.

Also, if I could get the list of who will be attending officers & civilians (ie. Chamber of Commerce and Los Angeles LGBT Center etc.) this way I can give it to our front gate ahead of time.

I will also be working this weekend so please feel free to contact me with any questions or if anything is needed.

Thanks very much!

Hello all,

First of all I want to thank you in advance for taking time out of your busy schedule to help train and develop our Leadership Team. We are asking that you please calendar us in to your schedule for the purposes of days off and deployment. I have attached a copy of a TENTATIVE agenda for the day and your time slot. As requested by some of you, here is the location of where the training will be taking place and some instructions.

Location: Scientology Media Productions located at 4401 W. Sunset Blvd Los Angeles, Ca 90027

Parking: Free parking inside the location. Enter off of the Sunset Blvd main gate and provide the security guard your name. He will then provide with a visitor pass and direct you to the parking structure that is located inside the lot.

Note: Once inside you will be directed to where you need to by members of the staff.

There will be access to a projector and a screen for a PowerPoint Presentation. Please let me know if you need anything else. So far, LAFPP requested a table and four chairs that we have already requested and will be available for the day.

I will send out a email reminders and eventually reach out to confirm your attendance and a FINALIZED copy of the Agenda. Thanks again for your help!

He said that he could go and tell the guy to move away, but in all fairness it would be discrimination to just target him not the other music players on Hollywood Blvd. I told him that is not discrimination because he is responding to a noise complaint from me, and that we, the neighbors, have the right to have peace and quiet in our homes. I pointed out to him that between Jefferson at Hollywood and Rubix there are over 600 people living there and he needs to assist us when we complain about the noises and disturbancy of peace which I am doing now.
